Vehicle Base is a no-drill solution and attaches to the passenger side seat studs. Designed using heavy gauge steel for long-term durability.
- 2. Offset Universal Mounting Step**
(Item No. DS-STEP)
The Offset Universal Mounting Step moves the mounting system away from passenger leg space towards the driver.
- 3. Lower Tube**
(Item No. DS-LOWER-7)
The Lower Tube provides vertical clearance over the center console or the seat.
- 4. Upper Pole**
(Item No. 7160-0177)
Center Upper Pole allows for closer mounting to the dash and less stress on the vehicle mounting equipment as weight is centered on the pole. Wrench is needed for loosening, tightening or height adjustment.

Locking Swing Arm can rotate around 360° with locking points every 15°. Motion Attachment has tilt capabilities up to 90° forward/30° back and can be swiveled up to 360°.
